SKILLS

17+ years of professional Film & Television production experience, 14+ years of shooting experience. I have shot throughout North America, Europe, Asia, and the South Pacific in nearly every climate and environment along with extensive studio work. As Director and DP I have overseen entire Sets including the Cast, up to 6 full camera crews plus the lighting department, story, shot lists and art direction per show with critical creative and logistical assessments in every facet. As Shooter/Producer I have created and conveyed Story while making editorial decisions on the fly in harsh conditions, both visually and through engaging cast to obtain sound bytes at the right moments in OTF / ITM and sit down interview.
